Dental Implants

New patients have not had the chance to experience what you have. With your help, they can feel more comfortable about beginning their periodontal program.

Have you had a memorable experience at Dr. Sheldon's office and want to share it with other patients? Here is your chance....Please take a few minutes, put your thoughts into words, and share your...

☆ Success Story ☆

Two years ago, I arrived at Dr. Sheldon's Melbourne office seeking a second opinion with regard to my seriously progressive periodontal disease. I had been told that my case was so advanced that I would have to settle for a partial plate or possibly dentures. My family dentist, Dr. Anthony Sidor, recommended that before making any decisions, I should seek the opinion of Dr. Lee Sheldon. That recommendation changed my life.

Today I have four perfect implants four crowns, no periodontal disease whatsoever, and a simply beautiful smile. This is particularly important to me because I am a flight attendant. My smile is the first thing my passengers notice about me and now I can greet my guests with total self-confidence.

Last but not least I would like to compliment Dr. Sheldon, himself, for caring about each and every patient the way he does. For him, making people happy is not just a vocation, it is an avocation. You can see this in the way he hand selects his wonderful staff. From the moment you meet Debi at the front desk right to the time of surgery and follow up cleaning visits, you know that Dr. Sheldon has personally chosen all of these caring employees for their compassion and knowledge. As you sit in the lounge area and read this letter, know that you are in the best possible hands. Know that these people truly care about you, and know that you will soon be smiling as you have never smiled before!

Sincerely with thanks,

Dona Leeming
