

TRIBUTE TO LEE N SHELDON DMD PA

I always dreaded to see a Dentist
A regular coward that was me
But that was all in the past
The Dentist now can drill pain free

So now I keep my appointments
Practicing prevention is the only way
It keeps away unpleasant surprises
And it's the best news of any day

When we smile the whole world smiles too
Successful people do it every day
A smile gathers good people around you
That pleasant smile will go a long way

It's we who must go the extra mile
With regular brushing and flossing too
Until a bad tooth wrecks our smile
Then we appreciate what Dr Sheldon can do

Specialized Dentistry has come a long way
It's not the end when a tooth comes out
With Dr Sheldon's Implant it's there to stay
And that's what success is all about
