for my success story.*

Thanks!

It is common knowledge that moving presents many challenges. Four years ago my husband and I moved to Florida from New York. We were faced with the enjoyable and often exhausting tasks of building a new home and learning about our new community. One of our most important tasks involved selecting new physicians. Luckily we had relatives in the area who willingly provided information and recommendations. When I discovered I had periodontal needs I immediately contacted my sister since she had a history of periodontal problems dating back to her teenage years. No one could have responded more assertively and assuredly than my sister that Dr. Sheldon was the periodontist I needed to see. Appreciating her advice I made my appointment and it has been a success story ever since. Dr. Sheldon has successfully treated my gums and associated bone loss. He has also provided a much needed dental implant, as well as crown lengthening and root reshaping. He has willingly and efficiently coordinated all interventions with my general dentist. Throughout my treatment program the utmost attention has been given to not only my periodontal well being but also to my physical and emotional comfort levels. I discovered that Dr. Sheldon is concerned about the whole patient and not only the specialized area of periodontics. Additionally, the entire staff demonstrates what I call the 3 Cs - competent, conscientious and caring. Each member of the staff consistently maintains a cheerful demeanor and remains totally approachable at all times. When my husband was informed recently that he also needed to see a periodontist there was not a moment of hesitation regarding the periodontist that would provide his treatment. Now we both call Dr. Sheldon our periodontist and feel totally comfortable and confident in the care we receive.
