Do you wear dentures (upper, lower) or partials? Have you experienced embarrassing moments when the dentures or partials didn't fit properly? Have you had moments when the dentures or partials slipped due to improper fitting? Well! There is an answer to this problem. Put an end to all the discomfort and smile because you can be in control of your situation.

For many, years I was the victim of wearing partials because I had been informed that I was not a candidate for implants. I was told I did not have enough bone structure for implants. However, all that changed when I was introduced to Dr. Lee N. Sheldon, D.M.D., PA (Dental Implant Specialist, Periodontics). After attending his seminar and explaining my situation to him, he stated, that if my former dentist's were not specialists that could explain why they would tell me I was not a likely candidate. Dr. Sheldon did a thorough examination and determined I was a candidate for implants, and what he could do that I would never have to worry about partials or dentures again. That was like music to my ears. He is a specialist in all venues dealing with your teeth. He is well versed, very personable and a wonderful person.

I'm sure many of you have heard "you are in good hands with All-State." You are definitely in good hands with Dr. Sheldon. He knew exactly how I felt and was very thorough in his examination. Many times I had been informed I had a nice smile. Although, that is nice to hear, as I explained to Dr. Sheldon, I didn't want to be a movie star, but, I wanted to be able to smile like one.

Dr. Sheldon assured me I would be very satisfied with the end result. Truer words were never spoken. Everything I went through was well worth it. I am very pleased that now when I smile you don't see spaces or clamps. It's like having my own teeth, only better. I never experienced any pain or discomfort. I was informed that if I needed to see the doctor or had questions at any time, he was always available to put your mind at ease. Oh! He also has a wonderful staff. Everyone is well trained and very personable.

Don't worry, be happy. Also, don't let age be a factor. You are never too old or too young to be able to have a great smile. I can't tell you how pleased I am with the finished product. I would recommend Dr. Sheldon and his staff to anyone. There is nothing better than having beautiful teeth and a beautiful smile. Don't put off tomorrow what you can do today.
