*New patients have not had the chance to experience what you have. With your help, they can feel more comfortable about beginning their periodontal program.*

*Have you had a memorable experience at Dr. Sheldon's office and want to share it with other patients? Here is your chance... Please take a few minutes, put your thoughts into words, and share your...*

## ★ Success Story ★

I spent so many years in needless pain, mostly from fear of dental work. My periodontal disease was affecting many aspects of my overall health. A good friend recommended Dr. Sheldon after his own good experience there. I assumed I would be told I would have to have dentures. From my first visit to the office I was made so comfortable by the Doctor & his staff. Dr. Sheldon recognized the infection around my teeth and immediately started treatment with oral antibiotics, and gave me the good news, that I would not lose any teeth. I have had two visits since, for scaling and cleaning with no discomfort or pain. My whole body feels better, and my energy level is improving. My only wish is that I had seen Dr. Sheldon sooner, I think he may have saved my life. I had no idea periodontal disease could affect so many parts of the body.

Patient Name: Connie Welch
